Education

University of Virginia
Master of Science in Mechanical and Aerospace Engineering
(specializing in Automobile Safety and Impact Biomechanics)

Charlottesville, Virginia

University of Virginia
Bachelor of Science in Mechanical Engineering

Charlottesville, Virginia

Experience

**Discipline Lead, Mechanical Engineering/Vehicle
Accident Reconstruction**
SEA, Ltd.

2020 to Present

Charlotte, North Carolina

Senior Project Engineer
SEA, Ltd.

2016 to 2020

Charlotte, North Carolina

Project Engineer
SEA, Ltd.

2007 to 2016

Charlotte, North Carolina

Project Engineer, with degrees in Mechanical and Aerospace Engineering, specializing in accident reconstruction, biomechanics, vehicular occupant safety, human factors, product evaluation/safety, and mechanical system failures.

Accident reconstruction projects include a wide range of motor vehicle and mechanical equipment types (e.g., passenger vehicles, light- and heavy-trucks, motorcycles, aerial lifts, powered industrial trucks (forklifts), power equipment, off-road equipment), as well as pedestrians. Specific experience includes electronic data retrieval (e.g., CDR, ECU, video) and subsequent interpretation, braking systems, vehicle handling and dynamics, human factors (e.g., visibility/conspicuity and perception/reaction), photogrammetry, and simulation/animation.

Biomechanics projects include assessments of injury kinematics (motion) and kinetics (force and associated injury thresholds) in a variety of loading events (e.g., vehicular accidents, premises incidents [e.g., slips and trips], workplace accidents, aerial lifts, power equipment, and product failures). Scopes additionally include human factor elements as related to such incidents.

Professional Resume
Brian Boggess, P.E. (1/2024)

Page 2

Mechanical engineering projects include the analysis of mechanical systems in terms of their product development, design, manufacture, and overall system performance. Examples of such products include, but are not limited to, mobile elevating work platforms (MEWPs), outdoor power equipment, powered industrial trucks (forklifts), motor vehicles, construction equipment, and other similar mechanical systems.

On-going research areas include heavy vehicle ECM data, heavy vehicle crashworthiness, braking and handling, and underride damage analysis; passenger vehicle safety systems and crush analysis; and MEWP and forklift design, safe usage, and operator training. Specific biomechanical research areas include, occupant and pedestrian safety, active and passive safety systems, injury reference values, human factors, and ballistic and explosives personal protective equipment.

Senior Engineer

2001 to 2007

Honda R&D Americas, Inc.

Raymond, Ohio

Development of safety systems for multiple Honda/Acura vehicles, including the Civic, Accord, Element, Pilot, Ridgeline, TL, and MDX, for areas of occupant and pedestrian safety. Responsibilities included full vehicle and component level impact tests to study the resultant structural and occupant effects, as well as the development of protective systems to reduce and/or mitigate occupant injury risk.

Served as project leader for research team, developing new materials for vehicle application. Led the establishment of Honda's first domestic Pedestrian Safety research laboratory. Multiple issued and pending patents filed for vehicle safety systems.

Research Assistant

1999 to 2001

Automobile Safety Laboratory/Center of Applied Biomechanics

Charlottesville, Virginia

Research center is one of the leading research groups in the world within the area of injury biomechanics. Work centered on the study of injury risk, injury threshold, and means by which to reduce said risks.

Specific work included the development of test methodologies for assessing backface deformation and the subsequent injury risk of ballistic helmets for the United States Military. Additionally, developed test methodologies for assessing injury risk potential of Personal Protection Equipment from landmine blast loading for the United Nations. Initial product comparison of various supplier products for both previous assessments. In terms of injury risk threshold determinations, developed biomechanical injury risk functions for injury prediction within the upper extremity for applications such as side airbag deployments. Collaborated with a dummy manufacturer (R.A. Denton) to create the 5th percentile female instrumented upper extremity for enhanced biofidelic response that involved cadaver correlation to develop specific injury criteria for the humerus, radius/ulna, and wrist complex.

Summer Undergraduate Research Program

Summer 1998

National Science Foundation

Blacksburg, Virginia

Performed mechanical property characterization; specifically, the strain energy release rate of double-cantilever beam adhesive systems subject to impact loading. Developed a new high-speed load rate analysis procedure.

Professional Resume
Brian Boggess, P.E. (1/2024)

Page 3

Engineering Technician

U.S. Department of Agriculture

Programmer with the Rural Utilities Service Division.

Summer 1997

Washington, DC

Engineering Technician

NASA Langley

Constructed test fixtures and analyzed the material properties of carbon fiber airplane fuselage sections from commercial passenger airliners subjected to various loading scenarios.

Studied the thermodynamic combustion behavior of the Freon R-12 replacement, R-134a, using both spark-ignition and self-ignition scenarios within a shock tube arrangement. Work included varying the range of pressure and temperatures to establish bounds on self-ignition boundaries for gaseous stability.

Summer 1994

Washington, DC

1996 – 1999 – Dean’s List, University of Virginia
1995 – Virginia Society of Professional Engineers Scholarship, University of Virginia
1995 – 1999 – Kollmorgen Engineering Scholarship, University of Virginia
1995 – Virginia State Golf Association Scholarship

Professional Affiliations

Society of Automotive Engineers (SAE)
Pi Tau Sigma (Mechanical Engineering Honor Society)
Member, SAE Accident Investigation and Reconstruction Practices Committee
Member, SAE EDR Task Group Committee
Association for the Advancement of Automotive Medicine (AAAM)
American Society of Mechanical Engineers, Member
American Society of Biomechanics, Member
International Traffic Medicine Association, Member
ANSI/SAIA A92 Aerial Work Platform, Main Committee member
ANSI/SAIA A92.5 American National Standard – Boom Supported Elevating Work Platforms, Subcommittee member
ANSI/SAIA A92.6 American National Standard – Self-Propelled Elevating Work Platforms, Subcommittee member
ANSI/SAIA A92.9, 9a, and 9b American National Standard - Mast-Climbing Work Platforms, Subcommittee member”
ANSI/SAIA A92.20 American National Standard – Design, Calculations, Safety Requirements and Test Methods for Mobile Elevating Work Platforms (MEWPs), Subcommittee member
ANSI/SAIA A92.22 American National Standard – Safe Use of Mobile Elevating Work Platforms (MEWPs), Subcommittee member
ANSI/SAIA A92.24 American National Standard – Training Requirements for the Use, Operation, Inspection, Testing and Maintenance of Mobile Elevating Work Platforms (MEWPs), Vice-Chairman and Interpretations Committee Member

Courses Taught/Presentations

- Accident Reconstruction: Heavy Vehicle Braking Systems
- Accident Reconstruction: Making Effective Use of Your Reconstructionist
- Accident Reconstruction: Catastrophic Incident Response
- Accident Reconstruction: Texting, Distracted Driving and Legal Ramifications
- Accident Reconstruction: Heavy Vehicle Anti-Rollover Technology
- Biomechanical Analyses and Vehicle Crashes
- Biomechanical Engineering: Relation of Injury and Loading in Vehicle Accidents and Premises Liability
- Biomechanics in Product Liability: Do the Claims Match the Evidence?
- Electronic Data: Electronic Control Modules, Telematics, etc.
- Technology and Trends in Accident Reconstruction
- Vehicle Accident Reconstruction and Biomechanical Engineering

Additional Education

- Warning Signs and Labels, 2023
- Ethical Decision Making for Engineers #1, 2023
- Scaffolds and Mobile Elevated Work Platforms – Construction Worksite Safety, 2023

Professional Resume
